

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

REVENUE FUND.

Owing to the destruction, or partial destruction, by fire of the hospital for the insane at St. Peter and the state's prison at Stillwater a few years since, necessitating the expenditures of large sums of money in the reconstruction of these institutions, and the large appropriations for the new hospital for insane at Fergus Falls, the state reformatory at St. Cloud, the state normal school at Moorhead, the school for dependent children at Owatonna and the soldiers' home at Minnehaha, all of which have been completed within the past two years or are now in course of construction, the drafts upon the state revenue fund have been very heavy. In fact, for several years past it was only through

the most economic interpretation of the laws that the expenditures have been kept within the limits of the incomes. At no time within the five years ending July 31, 1888, has the revenue fund been in a healthy condition, and for only twenty-nine days of the entire time has there been a credit to this fund, and then for not to exceed ten days in any one fiscal year. In other words, during fifty-nine of the sixty months the affairs of the state were conducted upon a credit system. One of the principal causes for this state of affairs is the manner of making appropriations. In nearly every instance they become available at the beginning of the fiscal year, which means a large demand for money at a time when the revenue receipts are comparatively small, and, in anticipation of the taxes which become due and available eight and ten months hence, the treasurer avails himself of the law which sanctions the borrowing and temporarily using \$200,000 of the sinking or trust funds for revenue purposes. Even this has been found insufficient to meet the current demands in the revenue fund, and at the last session of the legislature a bill was passed authorizing a temporary loan of \$100,000, and appropriating \$6,000 to pay the interest thereon. Although at the close of the present fiscal year there is \$139,990.72 to the credit of the revenue fund, from former experience it is safe to assume that even before the next legislature meets all available resources will have been exhausted. That this is a deplorable state of affairs no one will gainsay.

Three remedies are herewith respectfully suggested to the earnest consideration of the honorable legislature, the adoption of any one of which will, in my opinion, bring the desired relief.

First — So time all appropriations that they do not become available until the taxes for the year for which the appropriations are made become due and available.

Second — So amend section 44 of chapter 1, general statutes of Minnesota, as amended by Chapter VI, general laws of 1883, that the state treasurer may borrow and temporarily use from funds having an available balance in the treasury, \$500,000 or so much thereof as may be necessary to supply any deficiency that may exist in the revenue fund. Should this suggestion be adopted, I would recommend the repeal of chapter 215 general laws of 1887, also the passage of a bill authorizing the payment of interest, at a rate not to exceed five per cent per annum, to the several funds from which temporary loans may be made.

Third— Authorizing the issue of urgency revenue bonds in the sum of \$500,000, and drawing interest at a rate not to exceed five per cent per annum, the governor, auditor and treasurer, whenever in their judgment it becomes necessary, to invest the trust funds in these bonds and to redeem such bonds whenever, in their judgment such urgency does no longer exist. By this method the revenue fund could be kept in a healthy condition at all times, and the surplus trust funds would be safely invested in good interest bearing bonds. Should this suggestion be adopted then, in my judgment, all laws authorizing temporary loans might be safely repealed.

PAYMENTS UPON STATE LANDS.

I wish to call attention to the remarks and recommendation made by my immediate predecessor, the Hon. Charles Kittelson, on page 17, of his annual report for the fiscal year ending July 31, 1886, upon the law describing the mode of making payments upon school, university and internal improvement lands; and in addition thereto I wish to say, the change recommended is greatly desired.

STATE LOANS.

The state loans, represented by bonds, now consist of \$3,965,000 railroad adjustment bonds, of which the permanent school fund holds \$1,981,000, and the permanent university fund \$288,000; the balance are held by outside parties.

During the year the governor, auditor and treasurer found it necessary to avail themselves of the law which authorizes a temporary loan of \$100,000 for revenue purposes. An agreement was entered into with several banks to pay warrants issued against the revenue fund, and to receive interest on such warrants until the treasury could redeem the same, at a rate of six (6) per cent per annum. All interest bearing warrants were redeemed previous to the close of the fiscal year.

INTEREST ON DEPOSITS.

The income from this source during the last fiscal year amounted to \$13,209.01.

SEED GRAIN TO HAIL SUFFERERS.

Of the \$25,117.60 advanced to hail sufferers, in compliance with an act of the last legislature, \$6,275.16 have already been repaid. These loans are secured by bonds of counties receiving the relief, and are not included in the list of bonds held by any of the trust funds.

I take this method of acquainting you and the public of the faithful services rendered myself and the state by Theo. Sander, deputy state treasurer, and Mat. Jenson, clerk, and in the case of the latter I would respectfully recommend that his salary be increased from \$900 to \$1,200.

Very respectfully,

JOS. BOBLETER,

State Treasurer.

STATE LOANS.

The state loans, represented by bonds, now consist of \$3,965,000 railroad adjustment bonds, of which the permanent school fund holds \$1,981,000 and the permanent university fund \$288,000. The balance are held by outside parties.

Also \$250,000 state revenue bonds issued under an act, approved by the governor on the 24th day of April, 1889, and entitled "An act to borrow money to defray the extraordinary expenditures of the state government." These bonds are held, \$200,000 by the permanent school fund and \$50,000 by the permanent university fund.

INTEREST ON DEPOSITS.

The income from this source during the last fiscal year amounted to \$18,947.59.

Very respectfully,

Your obedient servant,

JOS. BOBLETER,
State Treasurer.
